WORK EXPERIENCE

Software Engineer | **Chubb**, Jersey City, NJ — Mar 2025 - Present

- Led the upgrade of Chubb Marketplace from Angular 7 to Angular 20, implementing micro frontend architecture and NgRx Store to enhance scalability, modularity, and code reusability across multiple teams and projects.
- Implemented and tested scalable Redux-based state management with Jest, ensuring predictable application behavior and maintaining 80%+ code coverage across core workflows.
- Leveraged Claude Code to accelerate development workflows, including code generation, refactoring, and debugging, improving delivery speed and code quality.
- Designed and launched a unified quote-ingestion interface for SEMCI workflows, consolidating fragmented submission paths into a scalable workflow that reduced operational complexity and improved maintainability.
- Mentored team members in configuring their development environments and provided comprehensive guidance on understanding frontend code repositories, accelerating onboarding and boosting team productivity.

Software Engineer Associate | **Chubb**, Jersey City, NJ — Jun 2022 - Mar 2025

- Engineered, tested, and maintained Angular applications for Chubb Marketplace and Cyber Central, maintaining best practices and a cohesive brand across various business lines.
- Contributed transformative redesign efforts to revamp the product quoting experience for businesses operating across multiple locations by streamlining routing and form handling, resulting in a 67% system performance improvement.
- Presented in multiple sprint reviews, displaying clear understanding and demonstration of UI enhancements and ability to translate technical work to business stakeholders.

PROJECTS

Sustainable Community Enrichment Project | Next.js, React, TypeScript, Tailwind CSS, Vercel — May 2026 - Jun 2026

- Designed and developed a nonprofit website using Next.js App Router, React, and Tailwind CSS to showcase community initiatives, agricultural programs, and fundraising efforts.
- Implemented responsive layouts using Tailwind CSS with a mobile-first approach, ensuring consistent UX across screen sizes.
- Optimized the application for production deployment with Vercel, leveraging Next.js features including App Router, optimized fonts, and image handling for improved performance.

Dance Break (Women Who Code Hackathon for Social Good 2023) | *React*, *Tailwind*, *Figma*, *Deno*, *Supabase* — Oct 2023

- Built a progressive web application that encourages movement after prolonged sedentary behavior.
- Collaborated under tight deadlines to deliver a polished product experience, earning finalist recognition for social impact and execution.

Merfash Designer Haute Couture Website | *Angular*, *Typescript*, *HTML*, *CSS*, *Firebase* — May 2023 - Aug 2023

- Redesigned a luxury fashion website by translating client vision into a modern, brand-aligned digital experience.
- Implemented responsive, performance-focused frontend architecture to ensure seamless usability across devices.

EDUCATION

Stevens Institute of Technology, Hoboken, NJ, May 2022
Bachelor of Engineering in Software Engineering | **GPA:** 3.87 | **Concentration:** UX/UI Design

---

SKILLS

- **Frontend:** Angular, React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS
- **State Management & Testing:** NgRx, Redux, Jest
- **Backend / Cloud:** Node.js, Firebase, Supabase, Microsoft Azure, Deno, Vercel
- **Design & Product:** Figma, UX/UI Design, Responsive Design, Design Systems
- **Tools:** Git, GitHub, Jira, Claude Code

AWARDS & CERTIFICATIONS

- Distinguished TAP Award (2024), Chubb
- Microsoft Certified: Azure Fundamentals (2023)
- Google UX Design Specialization, Coursera (2023)
- Waldo Shumway Award (2022), Stevens Institute of Technology
